

Expressive Arts and Design

Exploring and Using Media and Materials, Being Imaginative

We thought about the colour of our eyes, skin and hair before painting self-portraits, they are great!

Our singing is becoming more confident, we are enjoying singing our song 'I'm a Miracle' and learning a new song called 'Self Portrait'.

Lots of lovely drawing is happening with some very careful colouring.

Communication and Language

Listening and Attention, Understanding and Speaking

We are becoming confident talkers in class, taking it in turns to talk about our similarities and differences and the things we have enjoyed about our day.

Our two pupil council representatives shared with the class the ideas that had been discussed in their first meeting.

Mathematics

Numbers and Shape, Space & Measure

We have been counting to 15 and back from 10. The number fairy has been muddling up our number line, so we have been working together to put the numbers back in the correct order. We have enjoyed playing the Gingerbread man game on the smartboard, counting his buttons and then choosing the correct written number.

Personal, Social and Emotional Development

Making Relationships, Self Confidence and Self Awareness and Managing Feelings and Behaviour

I am so pleased to see how the children support each other and work together to get things done. All of the children are learning the importance of waiting their turn and listening to their peers. Sharing and taking turns can always be a challenge but we are working together on this.

Starfish Class Learning Log

Wk/B 22nd September

Physical Development

Moving and Handling and Health and Self-care

Our fine motor skills are developing well, this can be seen through are developing pencil control and ability to thread small letter beads on to a string. The strength in the children's hands is growing, helped by manipulating the play dough and clipping paper on to the easel for painting.

We have now started and are really enjoying, our Activate DVD programme. This is when we follow and copy the actions of someone else.

Understanding The World

People and Communities, The World, Technology

We have been learning songs about Harvest and noticing the changes that are now happening in nature, cooler weather and changing leaves.

We went up to the Church to practise our Harvest songs.

We walked quietly through the churchyard, looking out for signs of autumn.

We have enjoyed playing maths and literacy games on the smartboard.

Wow

Please draw a picture of something beginning with *S*.

Literacy

Reading and Writing

gock are our sounds this week. We have been thinking of words that start with each sound. We have again been using whiteboards to have a go at writing these letters ourselves. We have done guided reading as a class, looking at and talking about the pictures in a story. All of the children have answered questions and thought about what they think might be happening.
