

## Expressive Arts and Design

*Exploring and using media and materials, Being imaginative*

We enjoyed creating our hand print pictures, which are now on the wall in our classroom. Some of the children found it very tickly when their hands were painted

We have learnt some new phonics songs and have started learning a song about ourselves.

The play dough has again been popular and lots of chalk drawing on the ground outside has been happening.

## Personal, Social and Emotional Development

*Making Relationships, Self Confidence and Self Awareness and Managing Feelings and Behaviour*

The children have done very well this week. Taking full days and lunchtimes in their stride and everyone has commented on how well they have settled.

Some of the children are enjoying seeing siblings and older friends whilst out to play.

## Physical Development

*Moving and Handling and Health and Self-care*

We are still enjoying our play in the garden, riding the bikes around.

We are getting more confident when out at playtime and those of us who were a little unsure are starting to find our feet out there now.

We have been practising writing our sounds, developing our pencil control and fine motor skills.

We hope to start using the hall for PE on Monday.

## Communication and Language

*Listening and Attention, Understanding and Speaking*

We have started to learn a story with actions to support it. We are learning to use nice, clear voices. We have listened to stories and answered questions about them.

# Starfish Class Learning Log Wk/B 15<sup>th</sup> September

## Understanding The World

*People and Communities, The World, Technology*

Lots of imaginative play has been taking place in the house, it has been a house, a jail a den and a castle. The tent has also added to their exploration. I have just about worked out how to put it down again!

We have started to talk about ourselves and the similarities and differences. We have a lot of blue eyes in our class this year.

We have also started thinking about Harvest.

## Mathematics

*Numbers and Shape, Space & Measure*

We have continued to recognise the numbers to 5 and 10 and have extended our counting to 15 and counting back from 10.

We have also been counting with 1 to 1 correspondence.

The large sparkly flat shapes have been popular outside, with the children putting them together to create castles and rockets.

## Literacy

*Reading and Writing*

*Satp* are still being practised, but this week they have been added to with *inmd* and thinking of words that start with each sound.

We have been using whiteboards to have a go at writing these letters ourselves.

(Remember the letter formation sheet, name and a pen can stay at home.)

Our first reading books went home on Monday. Please share these with your child/ren and date and comment in their book. We will change our books on a Monday, Wednesday and Friday.

Wow

Please draw a picture of you with your family.
