

## Literacy

We have been writing labels for the classroom and to illustrate photos of the School Rules.

We have thought more about Kipper's character this week. We have painted pictures to show what he looks like and written descriptive sentences about what he likes to do.

## DT

We have been looking closely at the different parts of vehicles and naming the chassis, wheels, body, cab and axles.

## Phonics

We have been learning about the spelling pattern 'ie' and 'ea'. We have been reading words that contain 'ie' and 'ea' and drawing on the sound buttons. We have also been looking at the word 'old' and reading words that contain it such as told, bold or gold.

Hambledon Primary School

# Dolphins Learning Log

## History

We have been learning about what toys look like. We used a feely box to help us think about the materials they are made of and then used our senses to write sentences about them.

## **WOW work!**

Do you know your number bonds to 10? Draw the apples on the tree to make 10.

W/B 15.9.14

## Maths

We have been ordering numbers and carried out an investigation to help us think carefully about the numbers to 20.

We have also been doing addition with numbers up to 10 and 20. We used dice to make the numbers and number lines to help us find the answer.

## PSHE

We have been thinking about what makes a happy classroom and drawing pictures to show our ideas.

## P.E

We enjoyed our tennis session and played some partner games.

In Multiskills we practiced our dribbling skills by kicking a ball carefully around cones. We also had dribbling races!
