

Dolphins Learning Log

Literacy

We have continued with our topic on winter poetry. We have been looking at pictures of winter scenes and writing sentences to describe what we can see. We are getting really good at using similes in our sentences.

P.E

In multi-skills we have been to learning bat and ball skills. We learnt to bounce, pass and throw a ball to ourselves. We also had fun trying to hit a target.

Maths

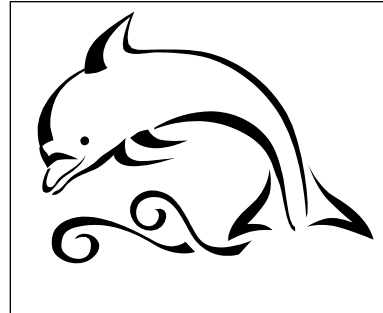

We have continued to work with 2D shapes. We have been sorting them in to sets, using geoboards to make different 2D shapes and using colours and shapes to complete repeating patterns.

We have also been practicing counting one more/less and two more/less. We have shown this on a beaded number line.

Science

In science we have been thinking about other sources of pushes and pulls. We made windmills to show that the wind can push objects.

WOW work!

Colour in all the shapes with the sums that add up to 10.

Phonics

We have been revising the 'ay' and 'ou' sounds. We have been reading and writing words such as play, spray, out, shout.

We have also begun to learn about adding an s or es to make a word plural. We mad sliders to show how the words changed.

Art

We have been making autumn pictures with different materials. We tore paper to make a background and used tissue paper to make autumn leaves.
