

# Dolphins Learning Log

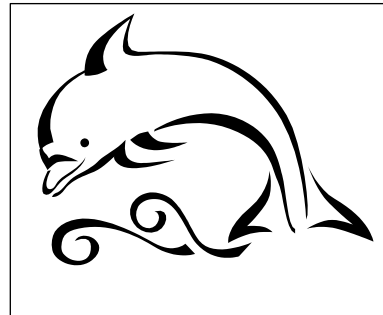

## Literacy

We have started to write our ice and snow themed stories. We have been trying hard to use story language and spell our keywords correctly.

We have begun to construct our winter poems from all the word work we have done. We are going to be typing them up ready to be published on our school website!

## Music

We have been using drums, shakers and triangles to tell a musical story about a polar bear. We took turns to conduct our orchestra. We are also working hard now to learn our Christmas songs ready for our nativity.

## Maths

We have been learning the addition facts for numbers up to 10. Some of us have been working out the corresponding subtraction facts.

We have finished our work with shapes by doing an investigation. We looked at the shapes of the letters in our names and sorted them in to curved and straight edges.

## Phonics

We have been revising all the sounds we have learnt this term and writing them in to words and sentences.

We have focused particularly on the 'ar' sound as we are confusing it with 'er' in our writing.

We are very nearly there with our collection of milk bottles. We hope to start the construction next week! If you have any more 4 pint milk bottles please bring them in on Monday.

## **WOW work!**

Play the rhyming game in your Wow work book.

## Art

We have completed the first stage of making our clay arctic animals. We rolled, twisted and pulled the clay to get it in to the right shape.

## P.E

We enjoyed our multi-skills session on the field. We have also been learning a dance for the school nativity play!
