

## Literacy

This week we have been developing our speaking and listening skills. We have been rehearsing our assembly. We hope you enjoyed it!

## Maths

We have been practicing halving and doubling numbers up to 20.

## Phonics

We have been learning about the alternate pronunciation for 'g' as in 'germ'.

We have also revised the sounds we know and have used them to write sentences.

## Music

We have used different percussion instruments to play along to our London's burning and London bridge songs. We enjoyed playing them for you in the assembly.

# Dolphins Learning Log

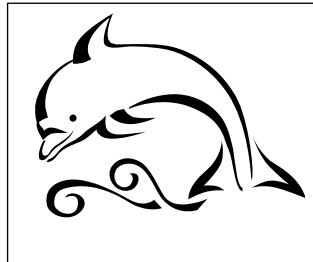

## Class Assembly

**We were brilliant!**

Thank you to all that came, we hope you enjoyed it too.

## **WOW work!**

No Wow work this week as it is half term. Enjoy the break!

## Monday

On Monday we had the fire educational service come to visit. The fire engine parked on the playground. We learnt all about how to keep safe if we ever discovered a fire and also started to think about how to keep safe near roads. We had great fun going on a simulated ride inside the fire engine and we all had a go at using the fire hose!

## P.E

In Multiskills we enjoyed having a mini game of hockey where we could put all of our skills to good use.

## RE

We have looked more closely at how Hindus celebrate Holi and why. We then thought carefully about how we remember special people in our lives and what objects we have to help us remember.
