

## Art

We have been producing various pieces of artwork to complete a large display of a seaside landscape. For instance: we have crumpled up tissue paper to create a lighthouse, sun and clouds; we have painted shells and drawn seagulls. We have also drawn a seaside landscape in our books. So as you can see we have been very busy!

## Science

We have been looking at wild plants, in particular wild flowers. As a class, we have produced a wild flowers book, commented on different wild flowers characteristics.

We have also been exploring our senses. We carried out experiments where we could see, smell, touch and hear different things. We also looked closely at our taste buds!

## P.E

We have continued to practice our cricket skills during multiskills. This week we played small games of cricket, taking turns to be the batter, bowler, wicket keeper and fielder.

Hambledon Primary School

# Dolphins Learning Log

**WB: 11-05-2015**

## History

We have again been looking at the story of Grace Darling. We have produced newspaper articles commenting on the events of the story and how the characters may have been feeling.

## **WOW work!**

Sort the real and nonsense words in to the treasure boxes.

## Maths

We have continued to work on subtracting 11, this time using our 0-100 number grids. We have also recapped our knowledge of number bonds. Finally, we have been learning how to bridge 10 by using our number bonds to 10. This has been jolly tricky but we have been brilliant and tried our best.

## Phonics

We have been learning about different pronunciations of the letters 'a' and 'y' and writing words with the 'qu' sound in. We have also been practicing recognising which words are real and which are nonsense.

## Literacy

We have adapted the story of Rumpelstiltskin, so that we have changed the character of Rumpelstiltskin and the gifts he gets from the girl. We have produced a story map with our adaptations and have used our story maps to write up the story.
