

Literacy

This week we have been again looking at the lighthouse keeper's stories, specifically 'The lighthouse Keeper's rescue' story. We have planned and produced a newspaper article to report on the whale rescue, which takes place in this story.

We have begun to learn the Three Bears story ready to show you in assembly on the **15th July at 9.00am**. To help us we have drawn a class story map and worked together to sequence pictures and sentences.

P.E

We have been practicing relays and how to pass the baton onto the next person in the relay

Art

We have been drawing an underwater scene in our books. We have then used this drawing to produce a batik underwater scene. To do this we drew white crayon on fabric and then added lots of different colours of dye.

Hambledon Primary School

Dolphins

WB: 29.6.15

Learning Log

WOW work!

Can you find the months of the year in the word search?

Maths

This week we have been learning our days of the week and months of the year. We have also produced a pictogram to show how many children in dolphin's class have their birthdays in each month.

We have been using our addition skills to find number families and play a 'four in a row' game.

Music

We are now practicing the songs we have learnt to play on the ukele so that we are ready to show you in our concert on the **16th July at 10.45am**.

Phonics

We have been looking at alternative ways to spell the sound /s/ and /z/. We have been including words with these sounds into sentences. We have also recapped on the sounds we know and used them to read words in sentences.
