

## Monday

Today we carried out some market research to find out what snacks everyone enjoys on hot days. We created a graph which showed us that ice-cream and smoothies were the most popular. We decided to make and sell frozen yoghurt with fruit as it is healthier than ice cream but still a cooling snack. It also tastes delicious!

## Tuesday

Today we went into 'The Dragon's Den'!! We presented our pitch to make and sell frozen yoghurt to the dragons. Luckily they gave us some money to buy the things we need to make the frozen yoghurt.

## Wednesday

Today we had lots of fun making our frozen yoghurt. We also wrote invitations inviting you to attend our sale on Friday.

## Dolphins

**WB: 6.7.15**

## Learning Log

## Enterprise Week

### **WOW work!**

How many ice-cream combinations can you make?

**PLEASE REMEMBER TO  
HAND YOUR WOW  
WORK IN ON A MONDAY**

## Thursday

We made some posters to show why frozen yoghurt would be a good thing to sell. We added a price and what flavours are on offer. All the money we raise from our frozen yoghurt will go to the RNLI.

## Friday

Today had the opportunity to listen to real entrepreneurs talk about how they began their businesses and what's involved in running them. We also had a go at making products related to their business, such as foil boats, maps and book covers. We also had a go at Tai-che! In the afternoon we sold our frozen yoghurt. Thank you for all your support and contributions.
