

Art / Design Technology

We have now finished our turtles. We talked about how we could join them together and then used split pins to attach the head and flippers.

Mathematics

We have been representing numbers using cubes and pictures, making cube snakes and then drawing our snakes.

We have used plasticine to make snakes, and estimate how long they are using a 20 bead string and using the words more than, less than.

Topic – History

We talked again about our families and have drawn pictures of our own families thinking about hair and eye colour when colouring in our drawings.

English

We are practising our Pie Corbett story 'The Little Red Hen' remembering to join in with the words and actions.

In phonics we have looked at the sound ou and ie, sorting and writing words with these sounds in them.

We have been looking at stories by the same author, in particular the Mog stories by Judith Kerr. We have been sharing them in groups, talking and writing about them.

Turtles Class Y1

Learning Log

Wk/B 14th September

Computing

All of the children this week have either had the use of laptops during their guided reading and or using the phonics activities on the smartboard.

Music

We really enjoyed our first music lesson with Mrs Harmer using our voices. We have also been practising our harvest song.

PE

Dance – the children started making up their own dances using the streamers. During their PE lesson with the coach the children were working individually on their target accuracy skills, trying to get a beanbag in a hoop.

RE/PSHE

During RE the children talked about change and thought about something they might like to change about themselves.
