

Art / Design Technology

This week we used the string faces we created as prints. We painted them with black paint and then printed them onto brightly coloured paper.

Mathematics

We have been using dice to add a small number to a chosen number on a numberline to 20

Topic – History

We put pictures of a family into age order showing our knowledge of change over time.

English

We have been using the story Handa's Surprise as the stimulus for our English this week. We have listened to the story and talked about where it is set, the fruits and animals in the story. We are now using the ideas to write our own Handa stories based in Hambledon. It sounds like there are some interesting creatures to be found in Hambledon..

In phonics we reinforced our learning of 'oy', 'oi' and started looking at the new sound 'ir', 'ur', 'er'.

Turtles Class Y1 Learning Log Wk/B 12th October

Science

The children looked at and planted bulbs in our garden, predicting what they thought they might grow into and what colour they might be.

RE/PSHE

The children listened to a story about a blind man and talked about how it might feel to be blind.

Music

During Music the children continued to developed their starry music and following conductor's signals and encouraging each other whilst singing solos.

PE

During their PE lesson with the coach the children continued to work on their individual target accuracy skills through throwing and kicking a ball.

Please can you bring a picture of you as a baby in on Monday.
