

### Art / Design Technology

This week we looked at pencil drawings of houses by other artists and used these as inspiration to draw our own, thinking about how we can use a pencil to shade.

### Mathematics

We have been making sure we are becoming secure in making number bonds of 10, thinking about all the ways we can make 10. We used scales and other measuring apparatus to weigh and measure out the ingredients for our bread.

### Topic – History

We really enjoyed looking at our baby photos and trying to guess who they were.

### English

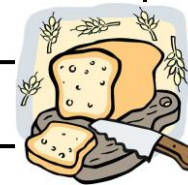

We used a story map to help us write our own Little Red Hen stories, we have also written our recipes for the delicious bread we made on Tuesday.

We have been using the story Handa's Surprise as the stimulus for our English again this week. We wrote our plans and are now using these to help us write our own stories of Handa's Surprise in Hambleton.

In phonics we reinforced our learning of 'ir', 'ur', 'er'.

## Turtles Class Y1 Learning Log Wk/B 19<sup>th</sup> October

### Science

We continued our study of our garden by looking at the changing colours of the leaves and recording what we saw.

### Music

We have been following picture symbols that we have created for our starry music.

### PE

In Dance this week the children were marching like soldiers, individually and in lines and also swapping places.

### RE/PSHE

The children talked about how their own life might change if they were blind and wrote a sentence about it.
