

Autumn Term 2

Hambledon Primary School

Dolphins Class

Mrs Sansom / Mrs McLauchlan

English

We have been writing firework shape poems. We thought of adjectives to describe how a firework looks, sounds and moves and then wrote the words around rocket shapes.

Learning Log

Week beginning: 2.11.15

Queens

Maths

We have been learning about time. We have used an analogue clock and a digital clock to record o'clock and half past times. We have also learnt how to write numbers digitally.

Phonics

We have been trying really hard with our spelling this week. We have been splitting words into phonemes and writing them on phoneme frames to help us spell them correctly.

We have begun to look at the rules for using 'er' at the end of words. We have used this suffix to change verbs into nouns eg read - reader.

Art

We have begun a unit of work on portraits. This week we drew self-portraits in our books. We thought carefully about the positioning of our features and tried hard to keep our faces in proportion!

We have also used a mixture of materials to create fabulous firework collages. We used card, tissue paper, oil pastels and stickers.

Christmas

We have designed our Christmas cards for the 'Friends' fundraiser. You will be able to view your child's artwork at parents evening and place an order for a pack of cards if you wish.

We have also drawn pictures of our favourite foods to be added to a 'Bag for Life' that will be on sale in time for Christmas.

Design and Technology

We have continued sewing our Coat of Arms wall hangings. This week we have started to sew on the picture that describes us!

Multi-skills

We have been moving our bodies to and fro to avoid an opponent. We have been moving around obstacles and our friends!

Music

This week we started to learn the National Anthem. Please continue to learn at home. We also got the Ukuleles out which we really enjoyed!
