

### English

We have used our imagination and what we learnt on our school trip to write our ideas down about castles. We have looked at some instructions that show us how to make a castle. We could identify the adverbs, time connectives and bossy verbs.

**We will be making our own castles next week so please bring in any boxes or tubes from home.**

We finished plotting the story of Small Knight and George onto a story mountain. We had to think carefully and split it into the introduction, build up, problem, resolution and ending.

### Phonics

We have been learning about past tense verbs. We have been changing sentences from the present tense to the past tense adding 'ed' endings to words.

### Harvest

We have painted some beautiful autumn trees ready for our service next week.

## Learning Log

**Week beginning: 21.9.15**

### Arundel Castle

We had a fantastic trip to Arundel Castle on Wednesday. We had brilliant guides and the children were all a credit to you and the school. Hopefully, the children came home and told you lots about what they had seen and learnt.

### Art

We looked at the painting 'St George and the Dragon' by Uccello and discussed the colours that had been used to create the right atmosphere in the painting. We then drew and painted our own interpretations of the battle between St George and the Dragon.

### Maths

WE have started to look at money. We can tell you all the coins we have in our country and we can add any two coins together. We have also been working in a systematic way to make sure we write down all the ways.

We have continued to build on our addition skills and have been drawing our own number lines to help us solve a problem. Some of us have been jumping in tens and ones.

### Science

We have begun a project about the trees in our school ground. We would like to know :  
Which of the school trees grows the most/ quickest through-out the seasons?

- Which tree drops their leaves first/last?
- Which tree grows back first/last?

We will be studying our trees throughout the year. We will be taking photos, drawing pictures and counting leaves. We will tell you what we find out in the summer term!
