

Autumn Term 1

Hambledon Primary School

Dolphins Class

Mrs Sansom / Mrs McLauchlan

English

We have been busy writing our stories this week. We worked really hard to use our plan to support our writing and to use some interesting vocabulary. We did brilliantly!

Phonics

We have been writing sentences, focussing on correct spelling and correct tense. We have also played games like dominoes and matching pairs to help us understand how root words change when adding 'ing'.

Reading

We have been impressed at how diligent most of you are being with your reading this half term. Remember if you read three times in a week you get a house point. Everyone has chosen a new book to read over half term.

Learning Log

Week beginning: 19.10.15

Design and Technology

We finished our castle models by adding painted walls, windows and arrow slits.

Music

This week we learnt the song 'Puff the Magic Dragon'. We continued to learn our partner dance.

Multi-skills

We have been working in teams to throw balls and bean bags at targets to score points.

Maths

We continued with our measuring. This week we have been measuring each other's feet!

R.E

We continued thinking about bread as a symbol at Harvest. We learnt about the harvest loaf and thought of our own symbols for harvest.

Science

We have been out again counting the leaves on our trees. We have been surprised by how many have dropped already. We have also collected leaves to show the change in colour.

Please can you ensure that PE kits and Book Bags are at school everyday. Thank you.
