

w/c Monday 7th December 2015**Literacy**

In Literacy, we have revisiting work on the use of a preposition in a sentence. We have identified a range of different prepositions within a sentence. We have also improved our writing by looking at ways in which we open each sentence.

Maths

In Maths, we have been learning about fractions. We have counted in quarters and halves up to 30. We have also played a game on the laptops to design a flag using fractions.

History

In History this week, we wrote a visitors' guide to Hambleton. Working in pairs, we had to consider three places in Hambleton which people might like to visit. For example, The People's Market, the cricket ground, the church etc. We then had to write a paragraph of information describing our chosen places. We have looked at images of Hambleton Cricket Club over the years and shared our thoughts on each one.

PE

In Games, we worked in groups to play a variety of different fun games. This included Racket Rebound and Target Tennis.

ICT

We have continued to use Paint.net to make changes to the photographs of the village.

Theatre visit

On Friday, we enjoyed the performance of 'Jack and the Beanstalk' in Winchester.

Art

In Art this week, we used our polystyrene block to print with. Using a roller, we inked up our blocks and tried to make a series of 'clean' prints (ones which weren't smudged!). After we had finished printing, we completed an evaluation to conclude the module. We also decorated our clay Christmas decoration using acrylic paint, glitter and sequins.

**French**

In our French lesson this week, we learnt how to say the names of the different rooms in our home. We also discussed French homes and how they may differ from our own.
