Maths

We have started a data handling unit where we are helping to plan Sports Day. We have created a mind map of all the different categories that we need to consider for Sports Day. We have also been developing our understanding of 'size' using words such as length and width. We have measured each other's heights and made nets for rollercoaster carts for our toys to sit in!

Geography

We have been looking at a map of the UK and finding out where Hambledon is situated. We have been thinking about places that we have visited and placing them on a map of the UK.

P.E

We had fun playing tennis at the village tennis court. We had fun learning racket skills and playing a mini game. We have continued to do multiskills developing our ball and balance skills.
