

Week Beginning: 30th June 2014

PE

This week as well as our tennis lesson, we have also taken part in other sporting activities. On Monday, we participated in a dance workshop. Working within 3 groups, we devised a range of movements which linked to friendship. We then performed our whole class piece to the song 'You've got a friend in me' from 'Toy Story'. In multi-skills the children have continued with athletics with a focus on improving their throwing, jumping and running skills. We also practised our skipping techniques in the playground with Mr Jones. The children all worked really hard to complete their fun run which included several water breaks.

DT

On Tuesday, we were given the challenge of designing and creating a healthy juice drink which would be sold to parents after school. In groups of 3, we had to taste a range of fruit juices and consider which ones we wanted in our drink. We then had to write a recipe and decide on a name for our drink. We also made posters advertising our drinks before finally making them. They all looked and tasted very refreshing!

Extra-curricular

We were very lucky to watch a performance called the Invasion of the Summer Puddings. The children learnt about the importance of eating a balanced diet. As a follow up to the play we have created healthy eating posters.

We also walked around the churchyard with Canon Coutts. We discussed safety and the importance of respect.

The following day, we visited the church to sketch in the grounds.

Art

In Art this week, we evaluated our printing work. We had to consider how difficult it was to transfer our design onto our polystyrene block and whether we were able to make a 'clean' print. We were all very pleased with our final pieces!

Homework:

This is your final week to gather information about your chosen country.
 Week 5 – Try to find out about the temperature of the country and the population.

Music

We practised finger picking a melody. We also improved changing chords.
